

CHEMOSPHERE

SUBJECT AND AUTHOR INDEX

Volume 15, 1986

Pergamon Press: Oxford New York
Beijing Frankfurt São Paulo Sydney Tokyo Toronto

EXECUTIVE EDITOR

Dr. T. Stephen, 8 Lewis Close, Risinghurst, Headington, Oxford OX3 8JD, U.K.

POLICY BOARD

Chemistry and Biochemistry

— Professor O. Hutzinger (Alfreda Hutzinger, Editorial Secretary), University of Bayreuth, Chair of Ecological Chemistry and Geochemistry, Postfach 3008, D-8580 Bayreuth, G.F.R.

Biology

— Dr. J. Norris (Director of Group Research, Cadbury Schweppes Ltd.), 32 Redland Grove, Redland, Bristol, BS6 6PR, U.K.

Ecotoxicology

— Dr. W. Klein, Fraunhofer-Institut für Umweltchemie und Ökotoxikologie, Grafsschaf/Hochsauerland, D-5948 Schmalfeld, G.F.R.

Pharmaceutical Organic Chemistry

— Dr. K. Takeda, Shionogi Research Laboratory, Fukushima-ku, Osaka, Japan

Toxicology

— Professor S. Safe, Veterinary Physiology and Pharmacology, Texas A and M University, College Station, TX 77843, U.S.A.

PARTICIPATING BOARD

Chemistry and Biochemistry

Prof. Dr. K. Ballschmitter, Universität Ulm (MNH), Abteilung Analytische Chemie, Oberer Eselsberg 0 26, D-7900 Ulm, G.F.R.
Prof. T. F. Bidleman, Department of Chemistry and Marine Science Program, University of South Carolina, Columbia SC 29208, U.S.A.

Dr. R. E. Clement, Ontario Ministry of the Environment, P.O. Box 213, Resources Road, Rexdale, Ontario M9W 2L1, Canada
Dr. W. Giger, Swiss Federal Institute of Technology, Institute for Water Research and Water Pollution Control (EAWAG), CH-8600 Dübendorf, Switzerland

Prof. R. A. Hites, School of Public and Environmental Affairs, 400E 7th Street, Indiana University, Bloomington, IN 47405, U.S.A.

Dr. M. A. K. Khalil, Oregon Graduate Center, 19600 N.W. Van Neumann Drive, Beaverton, OR 97006-1999, U.S.A.

Prof. D. Mackay, Department of Chemical Engineering, University of Toronto, Canada M5S 1A4

Dr. T. Mill, Stanford Research International, 333 Ravenswood Avenue, Menlo Park, CA 94025, U.S.A.

Dr. H. Parlar, Gesellschaft für Strahlen- und Umweltforschung MBH München, Institut für Ökologische Chemie, D8050 Freising-Ataching, G.F.R.

Prof. C. Rappe, Department of Organic Chemistry, University of Umeå, S-901 87, Umeå, Sweden

Dr. G. Sundström, Health and Environmental Sciences, Dow Chemical Europe, CH-8810 Horgen, Switzerland

Prof. Dr. P. R. Wallnöfer, Bayerische Landesanstalt für Ernährung, Menzinger Strasse 54, 8000 München, G.F.R.

Dr. V. Zitko, Program Head, Fisheries Environmental Research, Fisheries and Environmental Sciences, Department of Fisheries and Oceans, Biological Station, St. Andrews, New Brunswick, Canada E0G 2X0

Biology

Dr. A. G. Catroux, Laboratoire de Microbiologie des Sols, 7 rue Sully, 21 Dijon, France

Prof. G. D. Floodgate, Department of Marine Biology, Marine Science Laboratories, Menai Bridge, Anglesey LL59 5EH, U.K.

Prof. C. Nalewajko, Scarborough College, University of Toronto, West Hill, Ontario M1C 1A4, Canada

Ecotoxicology

Dr. G. C. Butler, 4694 West 13th Avenue, Vancouver BC, Canada V6R 2V7

Prof. Dr. D. Calamari, Istituto di Entomologia, Facoltà di Agraria, Università degli Studi di Milano, Via Celoria 2, 1-20133 Milano, Italy

Dr. W. Ernst, Institut für Meeresforschung, Am Handelshafen 12, 2850 Bremerhaven, G.F.R.

Prof. M. Goto, Institute of Ecotoxicology, Gakushuin University, Faculty of Science, 151 Merjiro, Toshima-Ku, Tokyo 171, Japan

Dr. P. C. Kearney, Chief, Pesticide Degradation Laboratory, Agricultural Environmental Quality Institute, U.S. Department of Agriculture, Beltsville, MD 20750, U.S.A.

Prof. F. Schmidt-Bleek, OECD 2, Rue André-Pascal F-75775, Paris Cedex 16, France

Prof. R. Truhaut, Université de Paris, 4 Avenue Del Observatoire, Centre Faculté de Pharmacie, 75006 Paris 6, France

Pharmaceutical Organic Chemistry

Dr. C. Harinasuita, The CCB/TROMPMED Central Office, 420/6 Rajvithi Road, Bangkok 4, Thailand

Dr. C. Mitoma, Stanford Research Institute, 333 Ravenswood Avenue, Menlo Park, CA 94025, U.S.A.

Toxicology

Dr. J. W. Bridges, University of Surrey, Institute of Industrial and Environmental Health and Safety, Guildford, Surrey GU2 5XH, U.K.

Prof. J. V. Bruckner, Division of Toxicology, University of Houston, Health Science Center, Houston, Texas, U.S.A.

Dr. V. H. Freed, Oregon State University, Head of Department of Agricultural Chemistry, Corvallis, OR 97331, U.S.A.

Prof. N. Imura, School of Pharmaceutical Sciences, Kitasato University, 9-1 Shirokane 5 chome, Minato-ku, Tokyo 108, Japan

Prof. Dr. J. H. Koeman, Agricultural University, Bio-technion de Dreijen, 12/7603 BC Wageningen, The Netherlands

Dr. E. Takabatake, Satsunan University, Faculty of Pharmaceutical Sciences, 45-1 Nagaotoge-cho, Hirakata, Osaka 573-01, Japan

Subscription and Advertising Enquiries

Subscription and advertising enquiries from customers in North America should be sent to: Pergamon Journals Inc., Maxwell House, Fairview Park, Elmsford, NY 10523, U.S.A., and for the remainder of the world to: Pergamon Journals Ltd., Headington Hill Hall, Oxford OX3 0BW, U.K.

Annual Subscription Rates 1987 (including postage and insurance)

Annual institutional subscription rate (1987) DM 850.00. Two year institutional rate (1987/88) DM 1615.00. Personal subscription rate for those whose library subscribes at the regular rate (1987) DM 228.00. Prices are subject to change without notice.

Microform Subscriptions and Back Issues

Back issues of all previously published volumes are available in the regular editions and on microfilm and microfiche. Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.

It is a condition of publication that manuscripts submitted to this journal have not been published and will not be simultaneously submitted or published elsewhere. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the publisher if and when the article is accepted for publication. However, assignment of copyright is not required from authors who work for organisations which do not permit such assignment. The copyright covers the exclusive rights to reproduce and distribute the article including reprints, photographic reproductions, microform, or any other reproductions of similar nature, and translations. No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, electrostatic, magnetic tape, mechanical, photocopying, recording or otherwise, without permission in writing from the copyright holder.

SUBJECT INDEX 1986

Absorption

- TCDD by plant species, 1387
- incinerator flue gas, reduction of dioxins and furans by spray dryer, 1247
- polychlorinated quarterphenyl congeners, pharmacokinetics in rats after an oral dose, 739

Accidents

- electrical incident 1981-1986, emission of PCB, PCDDs and PCDFs in offices, 1273
- electrical PCB accidents, an update, 1291
- Sevesco dioxin episode, time evolution properties and conversion factors between different analytical methods, 1549

Accumulation

- chlorinated hydrocarbons in environment due to atmospheric transport and deposition, 115
- chlordanes and nonchlorinated isomers, atmospheric concentrations, Canada, 449

Adsorption

- Cd by *Stichococcus bacillaris*, 69
- PCBs in human samples, pattern designation, 301
- rats, fecal excretion of 2,3,4,7,8-pentachlorodibenzo-furan, stimulating effect of activated charcoal beads, 219

Algae

- Stichococcus bacillaris* removal of Cd, 77
- Stichococcus bacillaris*, adsorption of Cd, 69

Ames Test

- strong mutagen 3-chloro-4-(dichloromethyl)-5-hydroxy-2(5H)-furanone in chlorinated drinking water and humic waters, detn, 549

Analysis

- butyltins, GC detn in natural waters by flame photometric detection of hexyl derivs with mass spectrometric confirmation, 461

- CDD and CDF analysis capability, worldwide survey, 1941
- CDD commercial, quality standards, 1947
- chlorinated dioxins and dibenzofurans in Ontario, analysing and controlling the risks, 1835
- chlorinated dioxins, large scale environmental survey, overview and soil data, 1453
- chlorinated dioxins, waste water analyses, large scale environmental survey, 1445
- CI from solid waste combustion, monitoring fate, 1339
- dimeric chlorophenol ethers in biological samples, multi-component analysis, 2103
- dioxins in used transformer fluid, analysis after electrical discharge, 1105
- dioxins, determination in fish and sediment, 1085
- dioxins/furans, ASME standard sampling and analysis methods, 1179
- environmental samples for PCDD/PCDF, PAH, PCB, chlorobenzenes and chlorophenols, analytical assay, 1091
- fish exposed to petroleum, ¹³C NMR in analysis of conjugate metabolites in the bile, 787
- hexachloronaphthalene, strongly bioaccumulating, characterisation, 619
- nitro- and dinitropolycyclic aromatic hydrocarbons, quantitation in diesel exhaust particulate water, 437
- PCBs, structure activity, use of principal components analysis to predict inducers of mixed-function oxidase activity, 275
- PCDD and PCDF residue data from GC/MS analyses, evaluation by pattern recognition, 1435
- PCDDs and PCDFs analysis in flyash by high resolution mass spectrometry, 2115
- PCDDs and PCDFs analysis of waste from production of Na-pentachlorophenolate, 1991
- PCDDs and PCDFs in biological samples, multicomponent analysis, 2109

- PCDDs and PCDFs in PCB oil from waste site, analysis, 1113
- PCDDs and PCDFs, analysis, HPLC and heart cutting techniques, use in clean-up procedure, 1123
- PCDDs and PCDFs, determination in human milk, 1977
- PCDD/PCDF, demands for effective analysis in environment and production control, 1099
- pentachloronitrobenzene and hexachlorobenzene, degradation products, 105
- pyridines, structure-activity examined by principal components analysis, 59
- strong mutagen 3-chloro-4-(dichloromethyl)-5-hydroxy-2(5H)-furanone in chlorinated drinking water and humic waters, detn, 549
- TCDD, human adipose tissue data in US samples, 2055

Animals see also Birds and Fish

- ¹⁴C-deltamethrin treated bean plants, bioavailability of bound ¹⁴C residues in rats, 923
- 2,3,4,6-tetrachlorophenol and pentachlorophenol, Danish coastal water levels and total organohalogenes in *Mytilus edulis*, 895
- 2,3,4,7,8-PeCDF, interaction with cytochrome P-450 isozymes in hepatic microsomes of rats, 731
- accumulation differences in marine organisms, quantitation of PCB patterns, 289
- administration of PCDDs and PCDFs from flyash in mammals, pharmacokinetic aspects, 1477
- amphibians, chemical causes for decrease, tests with *Xenopus laevis*, 807
- bullfrogs, tissue distribution of 2,3,7,8-TCDD in contaminated area, 121
- CDFs in rats, induction of hydrocarbon hydroxylase, 1745
- dioxin studies, status of centers for disease control, US population, 1765
- Hg, organic and inorganic, in food chain of lakes and reservoirs in Finland, 353
- Ni poisoned rats, removal of Ni

- from the organs by chelating drugs, 813
- organochlorine compds, assessment of impact of emission on aquatic environment, 825
- P₁CDD, pharmacokinetics and metabolism in rat, 1473
- PCBs, congeneric, effects on liver and kidney retinoid levels, rats, 1905
- PCDDs and PCDFs in human adipose tissue, analysis by EPA FY82 NHATS repository, 1605
- PCDDs and PCDFs on fly ash, bio-availability after semi-chronic oral ingestion by guinea pig and Syrian golden hamster, 519
- PCDDs and PCDFs, correlation between *in vitro* and *in vivo* structure-activity relationships, 1725
- PCDDs and PCDFs, studies on distribution and embryotoxicity in mice and marmosets, 2011
- PCDD/PCDF, approaches to health risk assessment, 1825
- PCQS, detn by HPLC and application to analysis of Yusho patient blood and toxic rice oil and distribution of synthetic PCQS in mice, 599
- pentachlorophenol, pure and technical grade, effects on cultures rat hepatocytes, 2125
- Pharmacokinetics of TCDD in man, 1489
- polychlorinated quaterphenyl congeners, pharmacokinetics in rats after an oral dose, 739
- rats, different regions of central and peripheral nervous system, effect of Cd on distribution of Cu, Zn and Fe, 373
- rats, fecal excretion of 2,3,4,7,8-pentachlorodibenzofuran, stimulating effect of activated charcoal beads, 219
- rats, tissue distribution and excretion of hexabromo- and hexachloro-benzene, 453
- Sevesoo dioxin episode, time evolution properties and conversion factors between different analytical methods, 1549
- TCDD Ah receptor, comparative studies in mammalian and nonmammalian species, 1665
- TCDD effect on distribution and excretion of endogenous pool of vitamin A in rats with low liver vitamin A stores, 1715
- TCDD in terrestrial organisms including humans, bioconcentration potential, 1495
- TCDD induced temporal- and dose-related characteristics of biochemical and morphological alterations in hamster, 1749
- TCDD localisation in hairless mouse skin, 2065
- TCDD metabolites, synthesis, biologic and toxic properties, 2081
- TCDD qualitative and quantitative cancer risk assessment, 1815
- TCDD, AHH-inducing activity, effects of cytosolic receptor modulation, rats, 1909
- toxicity of particulate emissions from municipal incinerators, concept of TCDD equivalents, 1733
- Antibodies**
monoclonal-chlorinated dibenzo-p-dioxins, 2007
- Aquatic systems see also under Water**
2,3,4,6-tetrachlorophenol and pentachlorophenol, Danish coastal water levels and total organohalogen in *Mytilus edulis*, 895
- bacteria in waters of Niepolomice forest, effect of emission of industrial dust, 629
- butyltins, GC detn in natural waters by flame photometric detection of hexyl derivs with mass spectrometric confirmation, 461
- chlorinated dioxins, dissolved organic matter mediated aquatic transport, 1379
- chloropropenes, assessment of impact of emission on aquatic environment, 861
- epichlorohydrin, assessment of impact of emission on aquatic environment, 881
- Hg, organic and inorganic, in food chain of lakes and reservoirs in Finland, 353
- lake Michigan, sorption of polynuclear aromatic hydrocarbons onto dissolved organic matter, 403
- natural waters, steady state concentrations of phototransient hydrated electron, 717
- organic and heavy metal pollutants in Mississippi river, 795
- organochlorine compds, assessment of impact of emission on aquatic environment, 825
- organophosphorus compds and carbamate residues in aquatic system of Ioannina basin and Kalamas river, 1023
- organotin compds in water and sediment in Canada, 253
- PCDDs and PCDFs in sewage sludge, river and lake sediments, Germany, 1421
- PCDDs in aquatic systems, photochemical quantum yields and sunlight half-lives, 1935
- propanil, microbial degradation in aquatic systems, 917
- TCDD and related compds, trends in lake Ontario ecosystem, 1405
- trifluralin, atrazine and fonofos residues, impact and distribution in microcosms simulating northern Prairie wetland, 563
- Volgermeerpolder refuse dump, provisional cleaning up, 1557
- Volgermeerpolder refuse dump, remedial action strategies, 1567
- Atmosphere**
accumulation of chlorinated hydrocarbons in environment due to transport and deposition, 115
- atmospheric carbonyl compds, speciation using improved HPLC method, 667
- bromo- and bromochloromethanes in air over Atlantic ocean, 429
- chlordane and nonchlor isomers, atmospheric concentrations, Canada, 449
- chlorinated C₁-C₆ hydrocarbons in air over north and south Atlantic ocean, 413
- PCDD and PCDF, fate and source, 1417
- PCDD and PCDF, quantitative detn in ambient air, 607
- polynuclear aromatic compds in ambient air of Stockholm, 169
- volatile organic compds, in air of southern Black forest, 985
- Automobiles**
nitro- and dinitropolycyclic aromatic hydrocarbons, quantitation in diesel exhaust particulate matter, 437
- PCDDs and PCDFs in environment, automobile exhausts vs municipal waste incineration as sources, 901
- Bioaccumulation**
chlorobenzenes, PCDDs and PCDFs, selective in wildlife of Volgermeerpolder, 1995
- differences in marine organisms, quantitation of PCB patterns, 289
- PCDDs and PCDFs, in fish after aqueous and dietary exposure, 1985
- rats, different regions of central and peripheral nervous system, effect of Cd on distribution of Cu, Zn and Fe, 373
- Bioactivity**
PCDDs and PCDFs in freshwater fish, uptake and depuration, 2023
- PCDD/PCDF congeners, uptake and elimination by fish after aqueous exposure to flyash from municipal incinerator, 2049
- pentachlorophenol, effect on soils, iron-reduction test, 309
- Bioassay see also Analysis**
CDDs and CDFs and toxic potentials in incineration products, relative toxicities assessed by E.L.S.-bioassay, 1165
- PCDDs and PCDFs in biological samples, multicomponent analysis, 2109
- toxic polychlorinated azobenzenes, *in vitro* bioassays, 2105
- Bioavailability**
¹⁴C-deltamethrin treated bean plants, bioavailability of bound ¹⁴C residues in rats, 923
- PCDDs and PCDFs on fly ash after semi-chronic oral ingestion by rats, 509
- PCDDs and PCDFs on fly ash after semi-chronic oral ingestion by guinea pig and Syrian golden hamster, 519
- TCDD in soil, assessment of health risks, 1867
- Bioconcentration**
Cd uptake in two strains of Saccharomyces and one strain of Rhodotorula cells in presence and absence of glucose, 981
- hydroxyethane diphosphonate, degradability, sludge adsorption, mobility in soils and bioconcentration factors affecting environment, 929
- TCDD effect on distribution and excretion of endogenous pool of vitamin A in rats with low liver vitamin A stores, 1715
- TCDD in terrestrial organisms including humans, bioconcentration potential, 1495
- TCDD, toxicity and bioconcentration, fathead minnows, 1503
- Biodegradation**
2- and 3-nitrophenols, simulation of biotic transformation by abiotic means, 149
- aerobic tests, behaviour of dyestuffs, 479
- alachlor, bioconversion in anaerobic stream sediment, 153
- assessments, need for applying stability tests, 471
- bis(2-ethylhexyl)phthalate and dioctylphthalate simulation of biotic transformation by abiotic means, 137

- chloropropenes, assessment of impact of emission on aquatic environment, 861
- environmental fate of linear alkylbenzenesulphonates, assessment, 3
- epichlorohydrin, assessment of impact of emission on aquatic environment, 881
- hydroxyethane diphosphonate, degradability, sludge adsorption, mobility in soils and bioconcentration factors affecting environment, 929
- linear alkylbenzenes, selective aerobic degradation by pure microbial cultures, 595
- organochlorine compds, assessment of impact of emission on aquatic environment, 825
- PCDDs and PCDFs in freshwater fish, uptake and depuration, 2023
- pentachloronitrobenzene and hexachlorobenzene, *in vivo* and *in vitro* biotransformation, 97
- polycyclic aromatic hydrocarbons, unsubstituted, uptake, depuration and biotransformation rates by *Styrodilulus heringianus*, 317
- propant, microbial, in aquatic systems, 917
- Biphenyls**
- accumulation differences in marine organisms, quantitation patterns, 289
- atropisomers, characteristics, 2061
- background levels in British soils, 499
- congener-specific, effects on liver and kidney retinoid levels, rats, 1905
- electrical incident 1981-1986, emission of PCB, PCDDs and PCDFs in offices, 1273
- electrical PCB accidents, an update, 1291
- environmental monitoring of PCB and trace metals in vicinity of chemical waste disposal, 947
- exposure from overheated transformer, 1305
- fires, correlation of chlorobenzene isomer and PCB homolog contents of PCB fluids with PCDD and PCDF contents of soot, 1313
- in UK environment, 211
- in human samples, pattern designation, 301
- methylsulphone congeners, determination in Yusho and control patients, 2027
- PCDDs and PCDFs in PCB oil from waste site, analysis, 1113
- photochemical degradation of chlorinated dioxins, biphenyls, phenols and benzene on semiconductor dispersion, 1913
- Pygocelis adeliae*, transfer rates and pattern of PCB isomers and congeners and p,p'-DDE from mother to egg, 343
- simulated building fire study using retrofilled transformer dielectric coolant, 1957
- structure activity, use of principal components analysis to predict inducers of mixed-function oxidase activity, 275
- TCDD, hepatic cytosolic receptor levels, modulation by PCBs and organochlorine pollutants, 2085
- transformer fires, exposure to PCB, PCDF and PCDD, 1297
- transhyretin binding of PCBs, model for mechanism of interference with vitamin A and thyroid hormone metabolism, 1699
- waste disposal areas, environmental monitoring for PCB and trace metals, 81
- waste incinerators, examination for dioxins, determination of PCBs and other chlorinated hydrocarbons, 2093
- Birds**
- Pygocelis adeliae*, transfer rates and pattern of PCB isomers and congeners and p,p'-DDE from mother to egg, 343
- Carcinogenesis**
- PCDD/PCDF, approaches to health risk assessment, 1825
- soft tissue sarcoma and phenoxy herbicides in New Zealand, 1795
- TCDD human exposure, rationale for assessment of risk, 1805
- TCDD qualitative and quantitative cancer risk assessment, 1815
- Carotene**
- Daphnia magna* and *Aedes aegypti* irradiated in presence of alpha-terthienyl, protecting effect of beta-carotene, 781
- Chemicals see also Biphenyls, Chlorine and Halogen compounds etc**
- estimation of toxicity on fish by physico-chemical properties, 195
- n-octanol/water partition coeffs, ecotoxicological behaviour of chemicals via chromatographic and structural parameters, 1467
- organic compds, relationship between OH radical rate constants in gaseous phase and their chemical shifts in ^1H - and ^{13}C NMR, 971
- organophosphorus compds and carbamate residues in aquatic system of Ioannina basin and Kalamas river, 1023
- PCDD/PCDF destruction by non-thermal methods, 1529
- pentachloronitrobenzene and hexachlorobenzene, *in vivo* and *in vitro* biotransformation, 97
- Photobacterium phosphoreum*, prediction of acute toxic concentrations of 68 aromatic compds, ecotoxicological QSAR study, 993
- phthalate esters, chemodynamic properties, partitioning and soil migration, 1003
- polynuclear aromatic compds in ambient air of Stockholm, 169
- TCDD and related compds, soil contamination, organisms or chemicals for destruction, 1513
- volatile organic compds, in air of southern Black forest, 985
- Chlorine and Halogen compounds see also Biphenyls**
- 2,3,4,6-tetrachlorophenol and pentachlorophenol, Danish coastal water levels and total organohalogenes in *Mytilus edulis*, 895
- accumulation of chlorinated hydrocarbons in environment due to atmospheric transport and deposition, 115
- bromo- and bromochloromethanes in air over Atlantic ocean, 429
- chlorinated C_{1-6} hydrocarbons in air over north and south Atlantic ocean, 413
- chlorinated hydrocarbons in lichen and moss samples from antarctic, 747
- chlorinated wastes, observations and assessments relating to incineration, 1577
- chlorobenzenes, PCDDs and PCDFs, selective accumulation in wildlife of Volgsmeerpolder, 1995
- chlorocarbons in adipose tissue from Missouri population, 1595
- chloropropenes, assessment of impact of emission on aquatic environment, 861
- CI from solid waste combustion, monitoring fate by analysis, 1339
- dielectric fluids, arochlor 1254 contaminated, pyrolysis and combustion, 1265
- dimeric chlorophenol ethers in biological samples, multi-component analysis, 2103
- dioxin analysis in stack emissions, slags and wash water circuit during high temp incineration of CI-containing wastes, 1193
- environmental samples for PCDD/PCDF, PAH, PCB, chlorobenzenes and chlorophenols, analytical assay, 1091
- epichlorohydrin, assessment of impact of emission on aquatic environment, 881
- halogenated methanes, *in vitro* biochemical decomposition by cytochrome 450-rich fraction of monooxygenase liver system, 1043
- hepatic Ah receptor, specific binding of TCDD, effect of hexachlorobenzene, 1691
- heptachlor enantiomers, new synthesis, 687
- hexachloronaphthalene, strongly bioaccumulating, characterization, 619
- hexachloroxanthene, mobility in Times beach, Missouri, 2069
- monobromo-polychloro derivs of benzene, biphenyl, dibenzofuran and dibenzodioxin formed in chemical-waste burning, 755
- occurrence and fate of polychlorinated aromatic ethers in environment, 1429
- organochlorine compds, assessment of impact of emission on aquatic environment, 825
- organohalogenes, experiments in high-temp chemistry, 1369
- ozone decomposition kinetic and oxidation of model polychlorinated organic compd in water, 183
- PCBs fires, correlation of chlorobenzene isomer and PCB homolog contents of PCB fluids with PCDD and PCDF contents of soot, 1313
- PCQS, detn by HPLC and application to analysis of Yusho patient blood and toxic rice oil and distribution of synthetic PCQS in mice, 599
- pentachloronitrobenzene and hexachlorobenzene, *in vivo* and *in vitro* biotransformation, 97
- photochemical degradation of chlorinated dioxins, biphenyls, phenols and benzene on semiconductor dispersion, 1913
- polychlorinated quaterphenyl congeners, pharmacokinetics in rats after an oral dose, 739
- rats, tissue distribution and excretion of hexabromo- and hexachloro-benzene, 453
- strong mutagen 3-chloro-4-(dichloromethyl)-5-hydroxy-2(5H)-furanone in chlorinated drinking water and humid waters, detn, 549
- TCDD, hepatic cytosolic receptor levels, modulation by PCBs and organochlorine pollutants, 2085

- tetrachlorinated planar molecules(8), N-octanol/water partition coeffs by reverse phase liquid chromatography/mass spectrometry, 163
- total and combined Cl in water, detn with pyridine-pyrazolone reagent, 707
- toxic polychlorinated azobenzenes, *in vitro* bioassays, 2105
- Volgermeerpolder refuse dump, provisional cleaning up, 1557
- Combustion see also Incinerators, Fires etc**
- analysis of stack emission sampling and sample preparation, comparison of polyurethane foam plug technique and impinger technique, 1917
- Cl from solid waste, monitoring rate by analysis, 1339
- dielectric fluids, arachlor 1254 contaminated, pyrolysis and combustion, 1265
- dielectric fluids, products of thermal degradation, 1261
- dioxin and furan emissions from fluidised-bed incinerator during combustion of paper recycling residues, 2089
- dioxin formation in municipal solid waste disposal, new theory, 1987
- dioxins from Scandinavian waste plants, 2041
- dioxins sources into environment, use of isomer specific data to characterise and differentiate, 1461
- dioxins, furans and related compds, thermal properties, 1325
- incinerator testing and evaluation, two-stage combustion tests, 1201
- municipal incinerators, thermal behaviour of PCDD/PCDF in flyash, 1373
- PCDD and PCDF in flyash, analysis, comparison of two methods of extraction, 645
- PCDDs and PCDFs on fly ash after semi-chronic oral ingestion by rats, bio-availability, 509
- PCDD/PCDF in fly ash, different treatment techniques, 1135
- polynuclear aromatic compds in ambient air of Stockholm, 169
- Degradation**
- chlorinated dioxins and related compds, unimolecular reaction rate theories, 1333
- dielectric fluids, products of thermal degradation, 1261
- photochemical-, of chlorinated dioxins, biphenyls, phenols and benzene on semiconductor dispersion, 1913
- TCDD and related compds, soil contamination, organisms or chemicals for destruction, 1513
- tridimenol, photolysis, 765
- Dioxin**
- 2,3,7,8-TCDD and related dioxins and furans in tissues of *Chelydra serpentina*, 537
- absorption of TCDD by plant species, 1387
- administration of PCDDs and PCDFs from flyash in mammals, pharmacokinetic aspects, 1477
- analysis in stack emissions, slags and wash water circuit during high temp incineration of Cl-containing wastes, 1193
- analysis of PCDD and PCDF in flyash, comparison of two methods of extraction, 645
- and dibenzofurans in human samples from Europe, 1635
- and furan emissions from fluidised-bed incinerator during combustion of paper recycling residues, 2089
- and furans and related compds, thermal properties, 1325
- and furans from an RDF fired spreader-staker system, effect of boiler operation and RDF feedstock, 1239

Insecticides

metabolism of metasytox R in cell suspension cultures of sugar-beet, 961
 synthetic pyrethroids, synergism with piperonyl butoxide against *Lymnaea acuminata*, 493

Leaching

chlorinated dioxins and dibenzofurans in leachate and sediments of sanitary landfill, Germany, 1981
 PCDDs and PCDFs from municipal waste flyash, leaching out by water and organic solvents, 1927

Metabolites

metasytox R in cell suspension cultures of sugar-beet, 961
 PCDFs and related compds in humans from Yusho and Yu-Cheng incidents, 1621
 TCDD-, synthesis, biologic and toxic properties, 2081
 transthyretin binding of PCBs, model for mechanism of interference with vitamin A and thyroid hormone metabolism, 1699

Metals and non-metals

bacteria, *in vivo* adsorption of metals, 629
 butyltins, GC detn in natural waters by flame photometric detection of hexyl derivs with mass spectrometric confirmation, 461
 Cd adsorption by *Stichococcus bacillaris*, 69
 Cd removal by *Stichococcus bacillaris* 77
 Cd uptake in two strains of *Saccharomyces* and one strain of *Rhodotorula* cells in presence and absence of glucose, 981
 environmental monitoring for PDB and trace metals in vicinity of chemical waste disposal, 947
 Hg in vegetation of mount Amiata area, 1035
 metal chlorides, search for industrial sources of PCDD/PCDFs, 653
 Ni poisoned rats, removal of Ni from the organs by chelating drugs, 813
 organic and heavy metal pollutants in Mississippi river, 795
 organotin compds in water and sediment in Canada, 253
 pentachlorophenol, effect on bioactivity of soils, iron-reduction test, 309
 rats, different regions of central and peripheral nervous system, effect of Cd on distribution of Cu, Zn and Fe, 373
 waste disposal areas, environmental monitoring for PCB and trace metals, 81

Microorganisms

bacteria in waters of Niepolomice forest, effect of emission of industrial dust, 629
 Cd uptake in two strains of *Saccharomyces* and one strain of *Rhodotorula* cells in presence and absence of glucose, 981
 linear alkylbenzenes, selective aerobic degradation by pure microbial cultures, 595
 nitropolychlorinated dibenzo-p-dioxins and related compds, bacterial mutagenicity, 1961
 partition coeffs of thioureas and their toxicity to *Photobacterium*

phosphoreum, detn and prediction, 383

PCDD/PCDF destruction by non-thermal methods, 1529
Photobacterium phosphoreum, prediction of acute toxic concentrations of 68 aromatic compds, ecotoxicological QSAR study, 593
 propranol, microbial degradation in aquatic systems, 917
 TCDD and related compds, soil contamination, organisms or chemicals for destruction, 1513
 waste waters from olive oil extraction plants, effect on soil bacteria population, 659

Models

assessing volatilisation of herbicides applied to flooded rice fields, 127
 environmental fate of linear alkylbenzenesulphonates, assessment, 3
 multimedia transport of particle-bound organics, benz[a]pyrene test case, 31
 transthyretin binding of PCBs, model for mechanism of interference with vitamin A and thyroid hormone metabolism, 1699

Mutagenesis

3-chloro-4-(dichloromethyl)-5-hydroxy-2(5H)-furanone in chlorinated drinking water and humic waters, detn, 549
 nitropolychlorinated dibenzo-p-dioxins and related compds, bacterial mutagenicity, 1961
 PCDD/PCDF, approaches to health risk assessment, 1825

Ozone

aromatic polycyclic hydrocarbons adsorbed on filters and ambient POM, reactivity with ozone, 675

Partition coefficients

n-octanol/water partition coeffs, ecotoxicological behaviour of chemicals via chromatographic and structural parameters, 1467

Pesticides

¹⁴C-deltamethrin treated bean plants, bioavailability of bound ¹⁴C residues in rats, 923
 carbendazim and benlate comparative photo-studies in aqueous HCl, 1063
 chlordanes and nonchlor isomers, atmospheric concentrations, Canada, 449
 environmental samples for PCDD/PCDF, PAH, PCB, chlorobenzenes and chlorophenols, analytical assay, 1091
 organophosphorus compds and carbamate residues in aquatic system of Ioannina basin and Kalamas river, 1023
 trifluralin, atrazine and fonofos residues, impact and distribution in microcosms simulating northern Prairie wetland, 563

Petroleum

fish exposure, ¹³C NMR in analysis of conjugate metabolites in the bile, 787
 hydrocarbon evolution in superficial marine sediments, detn by continuous flow through

- systems, 205
petrogenic contamination in recent sediments, identification by HPLC monitoring of aromatic components, 229
- Pharmacology**
polychlorinated quarterphenyl congeners, pharmacokinetics in rats after an oral dose, 739
- Phenols**
2,3,4,6-tetrachlorophenol and pentachlorophenol, Danish coastal water levels and total organochlorines in *Mytilus edulis*, 895
2- and 3-nitrophenols, simulation of biotic transformation by abiotic means, 149
PCDD, determination in pyrolysates from chlorinated phenolates, 2035
PCDDs and PCDFs analysis of waste from production of Na-pentachlorophenolate, 1991
PCDDs and PCDFs, formation from chlorophenols and chlorophenates at various temps, identification of trichlorobenzodioxins, 2129
pentachlorophenol, effect on bioactivity of soils, iron-reduction test, 309
pentachlorophenol, pure and technical grade, effects on cultures rat hepatocytes, 2125
photochemical degradation of chlorinated dioxins, biphenyls, phenols and benzene on semiconductor dispersion, 1913
polychlorinated phenoxyphenols, phenoxy anisoles, PCDD, PCDF and diphenyl ethers, synthesis, 2003
riboflavin-photosensitised degradation of veratrylglycerol- β -aryl ethers, model compds for lignin and chlorophenol and nitrophenol derived lignin-bound residues, 725
- Phosphorus compounds**
hydroxyethane diphosphate, degradability, sludge adsorption, mobility in soils and bioconcentration factors affecting environment, 929
metabolism of metasystox R in cell suspension cultures of sugar-beet, 961
organophosphorus compds and carbamate residues in aquatic system of Ioannina basin and Kalamas river, 1023
- Photochemistry**
benzo[a]pyrene and pyrene, toxicity in *Aedes aegypti* in the dark and in UV light, 243
carbendazim and benlate comparative photo-studies in aqueous HCl, 1063
Daphnia magna and *Aedes aegypti* irradiated in presence of alpha-terthienyl, protection effect of beta-carotene, 781
degradation of chlorinated dioxins, biphenyls, phenols and benzene on semiconductor dispersion, 1913
MCPA, degradation by UV irradiation, 395
natural waters, steady state concentrations of phototransient hydrated electron, 717
PCDDs in aquatic systems, quantum yields and sunlight half-lives, 1935
riboflavin-photosensitised degradation of veratrylglycerol- β -arylethers, model compds for lignin and chlorophenol and nitrophenol derived lignin-bound residues, 725
- Plants**
 ^{14}C - ^{14}N -labelled urea-formaldehyde polymers in soil and barley plants, fate under outdoor conditions, 1073
 ^{14}C -deltamethrin treated bean plants, bioavailability of bound ^{14}C residues in rats, 923
absorption of TCDD, 1387
herbicides, models for assessing volatilisation applied to flooded rice fields, 127
Hg in vegetation of mount Amiata area, 1035
hydrocarbons, chlorinated in lichen and moss samples from antarctic, 747
metabolism of metasystox R in cell suspension cultures of sugar-beet, 961
PCQS, detn by HPLC and application to analysis of Yusho patient blood and toxic rice oil and distribution of synthetic PCQS in mice, 599
Tagetes component alpha-terthienyl, a light dependent fish poisons,
- Plastisers**
aromatic hydrocarbons, polycyclic, formation by ionising radiations, 589
- Pollutants**
bis(2-ethylhexyl)phthalate and dioctylphthalate simulation of biotic transformation by abiotic means, 137
lake Michigan, sorption of polynuclear aromatic hydrocarbons onto dissolved organic matter, 403
multimedia transport of particle-bound organics, benzo[a]pyrene test case, 31
organic and heavy metals in Mississippi river, 795
phthalate esters, chemodynamic properties, partitioning and soil migration, 1003
TCDD, hepatic cytosolic receptor levels, modulation by PCBs and organochlorines, 2085
volatile organic compds, in air of southern Black forest, 985
waste disposal areas, environmental monitoring for PCB and trace metals, 81
waste water treatment and lack of biodegradability of pollutants, 183
- Pollution**
dioxin contamination in Missouri, 1571
PCDDs and PCDFs as part of pollution in environmental samples in urban areas, 1923
- Polymers**
aromatic polycyclic hydrocarbons adsorbed on filters and ambient POM, reactivity with ozone, 675
 ^{14}C - ^{14}N -labelled urea-formaldehyde polymers in soil and barley plants, fate under outdoor conditions, 1073
- Pyrethroids**
synthetic-, synergism with piperonyl butoxide against *Lymnaea acuminata*, 493
- Pyridines**
structure-activity examined by principal components analysis, 59
- Pyrolysis**
PCDD, determination in pyrolysates from chlorinated phenolates, 2035
polybrominated dibenzodioxins and -furans from flame retardants, 649
- Receptors**
hepatic Ah-, specific binding of TCDD, effect of hexachlorobenzene, 1691
PCDDs and PCDFs, correlation between *in vitro* and *in vivo* structure-activity relationships, 1725
rat liver- for TCDD, characterisation, comparison with rat liver glucocorticoid receptor, 1681
TCDD Ah-, comparative studies in mammalian and nonmammalian species, 1665
TCDD immunosuppressive activity, effect of inducers of P-450 cytochrome isoenzymes, 1707
TCDD-, binding, a new structure-affinity relationship, 1673
TCDD-, properties, a QSAR approach, 1657
TCDD-, structure, possible functions and relationship to endocrine receptors, 1649
TCDD, AhH-inducing activity, effects of cytosolic receptor modulation, rats, 1909
TCDD, hepatic cytosolic levels, modulation by PCBs and organochlorine pollutants, 2085
- Sediments**
chlorinated dioxins and dibenzofurans in leachate and sediments of sanitary landfill, Germany, 1981
dioxins, determination in fish and sediment, 1085
PCDDs and PCDFs in sewage sludge, river and lake sediments, Germany, 1421
petrogenic contamination in recent sediments, identification by HPLC monitoring of aromatic components, 229
petroleum hydrocarbon evolution in superficial marine sediments, detn by continuous flow through systems, 205
- Sewage**
chlorinated dioxins and dibenzofurans in leachate and sediments of sanitary landfill, Germany, 1981
PCDDs and PCDFs in sewage sludge, river and lake sediments, Germany, 1421
- Soil**
 ^{14}C - ^{14}N -labelled urea-formaldehyde polymers in soil and barley plants, fate under outdoor conditions, 1073
chlorinated dioxins, large scale environmental survey, overview and soil data, 1453
hexachloroxanthene, mobility in Times beach, Missouri, 2069
Hg in vegetation of mount Amiata area, 1035
hydroxyethane diphosphate,

- degradability, sludge adsorption, mobility in soils and bioconcentration factors affecting environment, 929
- PCBs, background levels in Britain, 499
- PCBs in samples, clean-up procedure for determination, 1107
- pentachlorophenol, effect on bioactivity, iron-reduction test, 309
- phthalate esters, chemodynamic properties, partitioning and migration, 1003
- Seveso area, assessment of exposure to TCDD, 1851
- TCDD and related compounds, contamination, organisms or chemicals for destruction, 1513
- TCDD contamination, Times beach, Missouri and Newark, comparative toxicity, 2121
- TCDD, assessment of health risks, 1857
- TCDD mobility, vapour phase transport and role of dispersing medium, 1389
- TCDD, water solubility determination, 1397
- waste waters from olive oil extraction plants, effect on bacteria population, 659
- Solvents**
- PCDDs and PCDFs from municipal waste flyash, leaching out by water and organic solvents, 1927
- Spectroscopy see also Techniques**
- fish exposed to petroleum, ^{13}C NMR in analysis of conjugate metabolites in the bile, 787
- organic compounds, relationship between OH radical rate constants in gaseous phase and their chemical shifts in ^1H - and ^{13}C NMR, 971
- Structure-Activity relationship**
- estimation of toxicity of chemicals on fish by physico-chemical properties, 195
- PCBs, structure activity, use of principal components analysis to predict inducers of mixed-function oxidase activity, 275
- PCDDs and PCDFs, correlation between *in vitro* and *in vivo* structure-activity relationships, 1725
- pyridines, structure-activity examined by principal components analysis, 59
- TCDD receptor binding, a new structure-affinity relationship, 1673
- Sugars**
- Cd uptake in two strains of *Saccharomyces* and one strain of *Rhodotorula* cells in presence and absence of glucose, 981
- Sulphur compounds**
- environmental fate of linear alkylbenzenesulphonates, assessment, 3
- Tagetes* component alpha-terphenyl, a light dependent fish poison, 49
- Synergism**
- synthetic pyrethroids, synergism with piperonyl butoxide against *Lymanaea acuminata*, 493
- Techniques see also Spectroscopy**
- accumulation differences in marine organisms, quantitation of PCB patterns, 289
- aerobic biodegradation tests, behaviour of dyestuffs, 479
- amphibians, chemical causes for decrease, tests with *Xenopus laevis*, 807
- analysis of stack emission sampling and sample preparation, comparison of polyurethane foam plug technique and impinger technique, 1917
- atmospheric carbonyl compounds, speciation using improved HPLC method, 667
- biodegradability assessments, need for applying stability tests, 471
- closed bottle test, reproducibility study, 331
- dioxin contaminated sites, innovative remedial action technology, 1535
- dioxin exposure assessment, use in rat retrospective cohort mortality study in US, 1753
- dioxins in drinking water, trapping via reverse-phase adsorbent cartridge, 1127
- incinerator testing and evaluation, two-stage combustion tests, 1201
- n-octanol/water partition coeffs, ecotoxicological behaviour of chemicals via chromatographic and structural parameters, 1467
- organic and heavy metal pollutants in Mississippi river, 795
- organic compounds, relationship between OH radical rate constants in gaseous phase and their chemical shifts in ^1H - and ^{13}C NMR, 971
- organophosphorus compounds and carbamate residues in aquatic system of Ioannina basin and Kalamas river, 1023
- PCB-methylsulphone congeners, determination in Yusho and control patients, 2027
- PCDD and PCDF residue data from GC/MS analyses, evaluation by pattern recognition, 1435
- PCDD and PCDF, quantitative detn in ambient air, 607
- PCDD, determination in pyrolysates from chlorinated phenolates, 2035
- PCDDs and PCDFs analysis in flyash by high resolution mass spectrometry, 2115
- PCDDs and PCDFs in complex environmental samples, comparison of quantitation by high resolution GC with flame ionisation, electron capture and mass spectrometry, 1141
- PCDDs and PCDFs in stack gas, comparison of sampling methods, 1187
- PCDDs and PCDFs investigation of different environmental samples, 2077
- PCDDs and PCDFs, analysis and heart cutting techniques, use in clean-up procedure, 1123
- PCDDs in soil samples, clean-up procedure for determination, 1107
- PCDDs/PCDFs, review of stack sampling methods, 1173
- PCDD/PCDF in fly ash, different treatment techniques, 1135
- PCDFs, synthesis, capillary gas chromatography and gas chromatographic/mass spectrometry characteristics, 1931
- PCQS, detn by HPLC and application to analysis of Yusho patient blood and toxic rice oil and distribution of synthetic PCQS in mice, 599
- pentachlorophenol, effect on bioactivity of soils, iron-reduction test, 309
- petrogenic contamination in recent sediments, identification by HPLC monitoring of aromatic components, 229
- phthalate esters, chemodynamic properties, partitioning and soil migration, 1003
- polychlorinated dioxins, vapour pressure determination by gas saturation methods, 2073
- TCDD, fast selective detection using mobile mass spectrometer MM1, 2031
- TCDDs(22) by electron impact ionisation mass spectrometry, synthesis and relative response factors, 1601
- tetrachlorinated planar molecules(8), n-octanol/water partition coeffs by reverse phase liquid chromatography/mass spectrometry, 163
- total and combined Cl in water, detn with pyridine-pyrazolone reagent, 707
- volatile organic compounds, in air of southern Black forest, 985
- waste incinerators, examination for dioxins, determination of PCBs and other chlorinated hydrocarbons, 2093
- Terphenyls**
- Daphnia magna* and *Aedes aegypti* irradiated in presence of alpha-terphenyl, protective effect of beta-carotene, 781
- Tissues and Tissue fluids**
- 2,3,4,7,8-PeCDF, interaction with cytochrome P-450 isozymes in hepatic microsomes of rats, 731
- 2,3,7,8-TCDD and related dioxins and furans in tissues of *Chelydra serpentina*, 537
- administration of PCDDs and PCDFs from flyash in mammals, pharmacokinetic aspects, 1477
- bullfrogs, tissue distribution of 2,3,7,8-TCDD in contaminated area, 121
- chlorocarbons in adipose tissue from Missouri population, 1595
- dioxins and dibenzofurans in human samples from Europe, 1635
- dioxins and furans, variation in human tissue, 1585
- fish exposed to petroleum, ^{13}C NMR in analysis of conjugate metabolites in the bile, 787
- uran human exposure, phenotypical dissection of T4+ and T8- lymphocytes using Leu 8 reagent to reveal increase of T8+ Leu 8+ subset, 1799
- hexachloronaphthalene, strongly bioaccumulating, characterisation, 619
- metabolism of metasytox R in cell suspension cultures of sugar-beet, 961
- P₂CDD, pharmacokinetics and metabolism in rat, 1473
- PCB-methylsulphone congeners, determination in Yusho and control patients, 2027
- PCBs, congeneric, effects on liver and kidney retinoid levels, rats, 1905
- PCDDs and PCDFs in human adipose tissue in Japan, 1629
- PCDDs and PCDFs in human breast milk from Netherlands, 693
- PCDDs and PCDFs in human milk, reasons for concern, 1641

PCDDs and PCDFs, determination in human milk, 1977

PCDDs and PCDFs, studies on distribution and embryotoxicity in mice and marmosets, 2011

PCQS, detn by HPLC and application to analysis of Yusho patient blood and toxic rice oil and distribution of synthetic PCQS in mice, 599

pentachlorophenol, pure and technical grade, effects on cultures rat hepatocytes, 2125

Pharmacokinetics of TCDD in man, 1489

rats, different regions of central and peripheral nervous system, effect of Cd on distribution of Cu, Zn and Fe, 373

rats, tissue distribution and excretion of hexabromo- and hexachloro-benzene, 453

TCDD action in human hepatoblastoma HEPG2, tissue culture cell line, functional and microscopical observations, 1965

TCDD and dibenzofuran levels in human adipose tissue and milk samples from Vietnam, 1613

TCDD levels in adipose tissue in Vietnam veterans seeking medical assistance, 1787

TCDD localisation in hairless mouse skin, 2065

TCDD, hepatic cytosolic receptor levels, modulation by PCBs and organochlorine pollutants, 2085

TCDD, human adipose tissue data in US samples, 2055

Toxicity

benzo[a]pyrene and pyrene, toxicity in *Aedes aegypti* in the dark and in UV light, 243

CCDs and CDFs and toxic potentials in incineration products, relative toxicities assessed by E.L.S.-bioassay, 1165

CCDs and CDFs mixtures, estimate of risks associated with exposures, 1895

chlorinated dioxins, exposed workers, evaluation of mortality patterns, 1769

dioxin studies, status of centers for disease control, US population, 1765

estimation of chemicals on fish by physico-chemical properties, 195

uran human exposure, phenotypical dissection of T4+ and T8+ lymphocytes using Leu 8 reagent to reveal increase of T8+ Leu 8+ subset, 1799

of particulate emissions from municipal incinerators, concept of TCDD equivalents, 1733

partition coeffs of thioureas and their toxicity to *Photobacterium phosphoreum*, detn and prediction, 383

PCDDs and PCDFs, studies on distribution and embryotoxicity in mice and marmosets, 2011

PenCDF in rats reduced by activated charcoal beads, 219

Photobacterium phosphoreum, prediction of acute toxic concentrations of 68 aromatic compds, ecotoxicological QSAR study, 993

polychlorinated azobenzenes, *in vitro* bioassays, 2105

Sevesco episode, validity of epidemiological inquiries in relation with definition of population at risk, 1777

TCDD and bioconcentration, fathead minnows, 1503

TCDD contaminated soil from, Times

beach, Missouri and Newark, comparative toxicity, 2121

TCDD induced temporal- and dose-related characteristics of biochemical and morphological alterations in hamster, 1749

TCDD levels in adipose tissue in Vietnam veterans seeking medical assistance, 1787

TCDD metabolites, synthesis, biologic and toxic properties, 2081

TCDD receptor properties, a QSAR approach, 1657

TCDD receptor, structure, possible functions and relationship to endocrine receptors, 1649

TCDD, relationship between toxicity and induction of aryl hydrocarbon hydroxylase and ornithine decarboxylase, 1967

TCDDs (22) by electron impact ionisation mass spectrometry, synthesis and relative response factors, 1601

Toxins

alpha-terthienyl fish poison with light dependency, 49

amphibians, chemical causes for decrease, tests with *Xenopus laevis*, 807

PCQS, detn by HPLC and application to analysis of Yusho patient blood and toxic rice oil and distribution of synthetic PCQS in mice, 599

Transformers

dielectric fluids, arochlor 1254 contaminated, pyrolysis and combustion, 1265

dielectric fluids, products of thermal degradation, 1261

electrical incident 1981-1986, emission of PCB, PCDDs and PCDFs in offices, 1273

electrical PCB accidents, an update, 1291

fire in market plaza, California, 1281

fires, exposure to PCB, PCDF and PCDD, 1297

fluid analysed for dioxin after electrical discharge, 1105

overheated-, exposure to PCBs, 1305

PCDDs and PCDFs accidental human exposure after transformer fire, 1953

simulated building fire study using retrofilled transformer dielectric coolant, 1957

Transport

chlorinated dioxins, dissolved organic matter mediated aquatic transport, 1379

multimedia transport of particle-bound organics, benzo[a]pyrene test case, 31

TCDD mobility in soil, vapour phase transport and role of dispersing medium, 1389

Triazenes

Ah receptor, interaction with 1,3-diaryltriazenes, 1687

Vitamins

PCBs, congener-specific, effects on liver and kidney retinoid levels, rats, 1905

TCDD effect on distribution and excretion of endogenous pool of vitamin A in rats with low liver vitamin A stores, 1715

transthyretin binding of PCBs,

model for mechanism of interference with vitamin A and thyroid hormone metabolism, 1699

Wastes

chlorinated-, observations and assessments relating to incineration, 1577

Cl from solid waste combustion, monitoring fate by analysis, 1339

dioxin analysis in stack emissions, slags and wash water circuit during high temp incineration of Cl-containing wastes, 1193

dioxin and waste disposal, UK experience, 1543

dioxin contaminated sites, innovative remedial action technology, 1535

dioxin formation in municipal solid waste disposal, new theory, 1987

dioxins from Scandinavian waste combustion plants, 2041

incinerator testing and evaluation, two-stage combustion tests, 1201

incinerators, examination for dioxins, determination of PCBs and other chlorinated hydrocarbons, 2093

incinerators of different countries, comparison of PCDD and PCDF in flyash, 1219

monobromo-polychloro- derivs of benzene, biphenyl, dibenzofuran and dibenzodioxin formed in chemical-waste burning, 755

PCDDs and PCDFs analysis of waste from production of Na-pentachlorophenolate, 1991

PCDDs and PCDFs in PCB oil from waste site, analysis, 1113

PCDD/PCDF from incinerators, causes for and reduction of emissions, interpretation of recent measurements, 1225

Swedish incinerators, PCDDs and PCDFs in emissions, 2045

TCDD mobility in soil, vapour phase transport and role of dispersing medium, 1389

Volgmerpolder refuse dump, provisional cleaning up, 1557

Volgmerpolder refuse dump, remedial action strategies, 1567

Water see also Aquatic systems

chlorinated dioxins and dibenzofurans in leachate and sediments of sanitary landfill, Germany, 1981

chlorinated dioxins, waste water analyses, large scale environmental survey, 1445

dioxin analysis in stack emissions, slags and wash water circuit during high temp incineration of Cl-containing wastes, 1193

dioxins in drinking water, trapping via reverse-phase adsorbent cartridge, 1127

PCDDs and PCDFs from municipal waste flyash, leaching out by water and organic solvents, 1927

strong mutagen 3-chloro-4-(dichloromethyl)-5-hydroxy-2(5H)-furanone in chlorinated drinking water and humid waters, detn, 589

TCDD, water solubility determination, 1397

total and combined Cl in water, detn with pyridine-pyrazolone reagent, 707

waste water treatment and lack of

biodegradability of pollutants,
183
waste waters from olive oil
extraction plants, effect on
soil bacteria population, 659

Wood

riboflavin-photosensitised
degradation of veratrylglycerol-
 β -arylethers, model compds for
lignin and chlorophenol and
nitrophenol derived lignin-bound

residues, 725

Xenobiotics

chemical degradation, 149
